

## **A Letter from a CJD Foundation Family Member about International CJD Day**

Dear Friends, Family, and all who have touched our lives,

Wednesday, November 12th, 2009 is International CJD Day. I am asking that you all take a few minutes this day to EDUCATE yourselves, your friends, your neighbors, your students and your colleagues on the advances and breakthroughs in CJD research.

To our friends in the medical community, November 12th would be an exemplary day to call and schedule an appointment for a Grand Round meeting with the CJD Foundation. You would be able to learn first hand from experts in the field. And you, in turn, can take that knowledge and EDUCATE, diagnose, and spread the word about the advances of CJD research. It is you, our friends in the medical community that we depend on to help us EDUCATE the populace about the truths of this horrific disease.

To our friends and family, you saw first hand how this disease kills. It not only destroys the physical body but it takes the soul. And it takes the souls of the family members as well. To EDUCATE our neighbors and community of the truths and the myths is a must. So please, help us spread the word.

Let us make November 12th, International CJD Day, a day of unity in which we all join forces to EDUCATE the populace to the reality of this horrific disease and the hope for a cure in the near future.

Share this letter with everyone you know and eventually CJD will come to the forefront; it will no longer hide in the dark and only come out when it is ready to kill.

I am thanking you in advance for your help.

Roseann Bray  
*on behalf of David C. Bray, Sr., 11/8/1947 - 10/12/2006*
